

I request that you leave the Current Indiana Telephone Privacy Law intact.

The law currently allows the businesses that I have a relationship with to contact me regarding my account.

It does not allow the business to make unwanted calls to my residence selling products or services that I have no interest in.

The current Telephone Privacy Law has successfully provided the residents of Indiana protection against unwanted calls during the short personal time we get at home.

Please vote to make no changes to the Current Indiana Telephone Privacy Law.
